PRODUCT ANNOUNCEMENT
FUZEON[®] (enfuvirtide) for Injection, 90mg
PACKAGE CHANGE

Dear Customer:

Roche Laboratories Inc. is announcing changes to the syringes included in the **FUZEON** (enfuvirtide) for injection, 90mg (0004-0380-39) convenience kit. The Terumo[®] SurGuard2[™] safety syringe is now being provided with Fuzeon. This new syringe features a protective green safety cover that snaps into place over the needle after use. With the SurGuard2[™] syringe, needle size remains the same; 1mL and 3mL syringes are still included with the prescription; and basic mixing and injection instructions for taking Fuzeon do not change but have been modified slightly to note the new syringe.

The actual dimensions of the Fuzeon box has also been decreased to SKU Dimensions (L x W x D): 11" x 8" x 8.75" (0.45 cu. ft.)

Please note: There is no change to the NDC number.

Please continue to use all existing stock of Fuzeon until your inventories have been depleted as this change does not affect the product. Returns to reduce inventory will not be accepted.

For additional information, see the enclosed wholesaler fact sheet.

We thank you for your support in implementing this change. If you have any questions, please contact your Roche Trade and Professional Relations Manager or the Roche Order Fulfillment Department at 1-800-526-0625.

Sincerely,

Patrick A. Cofone
Director, Trade & Professional Relations
