Re: NDC# and Bottle Size Change for EFFEXOR®/EFFEXOR XR®
(venlafaxine HCl)

Dear Valued Customer:

We are pleased to inform you that the introduction of the new, unit-of-use packaging for EFFEXOR® (venlafaxine HCl) tablets and EFFEXOR XR® extended-release capsules has been completed. **Please note the 100-ct bottles of EFFEXOR and EFFEXOR XR have now been replaced with smaller unit-of-use bottles. Therefore, order quantities must be increased to reflect the new smaller unit-of-use bottle sizes for the new NDC numbers listed below.**

The new unit-of-use EFFEXOR and EFFEXOR XR bottle labels have been designed and color-coded with emphasis on brand identification, dosage strength identification and differentiation of tablet/capsule count. New NDC numbers have been assigned for unit-of-use EFFEXOR tablets and EFFEXOR XR extended-release capsules, which are listed below. Please make note of this new NDC number information when ordering EFFEXOR tablets and EFFEXOR XR extended-release capsules from your servicing wholesaler or direct from Wyeth.
