

December 18, 2006

Dear Wholesaler Buyer:

In early November, we informed you of a shortage in supply for AGENERASE® (amprenavir) 15 mg/mL Oral Solution (NDC# 0173-0687-00). We are pleased to report that our manufacturing issue has been resolved and AGENERASE Oral Solution is now available to order through your normal ordering process. All active backorders will be shipped the week of December 18<sup>th</sup>.

We will be notifying pharmacy customers directly that they no longer need to call to place drop-ship orders.

We appreciate your cooperation and patience during this time.

If you should have any further questions, please contact your GlaxoSmithKline Channel Account Manager or call Customer Relations at 1-800-877-1158.

Sincerely,

A handwritten signature in black ink that reads "John L. Fish".
